

THE SELECTION OF SUCCESSFUL SOLAR POWER PRODUCER OF CORPORATE GREEN POWER PROGRAMME (CGPP)

Energy Commission has been entrusted by the Ministry of Natural Resources, Environment and Climate Change to implement the Corporate Green Power Programme (CGPP) to be commercial operation in 2025 in NEDA programme. Under CGPP Programme an eligible Corporate Consumer, while as a normal consumer of the Electricity Utility Company, can have an agreement, called the Corporate Green Power Agreement, with a Solar Power Producer for the virtual sale and purchase of the renewable energy produced by the solar power plant. This will enable the Corporate Consumers to enhance their corporate image in the effort to contribute to the reduction of carbon dioxide emission by using renewable energy while at the same time, being backed up and supplied with secure and reliable power by the Electricity Utility Company.

The application for the CGPP has commenced from 9 May 2023 until 31 December 2023 or until the total allocation quota of 800MW is fully subscribed. There are total of 71 applications received thus far, and the successful Solar Power Producer are listed below:
