Sabah deserves more funding to improve electricity supply

KOTA KINABALU: Sabah should be getting more funding from the Federal Government towards improving the electricity supply in the state.

Putatan Member of Parliament Datuk Dr Marcus Mojigoh in making the call pointed out that people in Sabah have been suffering because of the frequent power outages in the state.

“As an important component that helped to form the government, Sabah should be given more attention and funding to improve the basic infrastructure in the state so that the people will have better living condition.

“The government must also look into providing more funding for the construction of IPPs in Sabah so that more power can be generated for consumers,” he said.

Marcus said this when met after presenting the ‘Wang Bantuan Awal Persekolahan’ to students of SM La Salle in Tanjung Aru here yesterday.

He was asked to comment on complaints by representatives of the school’s Parent-Teacher Association (PTA) about the insufficient electricity supply to the school which has damaged some of the air conditioners there.
